

Colossal Fossil Hunt

Colossal Fossil Hunt

How to get started

- 1 Colour your game to make it look attractive.
- 2 Cut out the tors (dinosaur heads).
- 3 Enjoy playing Colossal Fossil Hunt with your family and friends.

How to play

- 1 This is a game for two or more people.
- 2 You will need a die.
- 3 Everybody starts on square one.
- 4 Take turns to roll the die.
- 5 Move forward the number of squares as indicated on the die.
- 6 If you land on a pair of fossil feet, follow the feet where they lead.
- 7 If you land on a dinosaur head, slide down the neck to its feet.
- 8 The first person to reach the end is the winner.

Congratulations!

Colossal Fossil Hunt

START 1 You learn how to spell palaeontologist. 2 You accidentally drop and smash a rare fossil. 3 You find a fossil feather. 4 You find a mummified thylacine in a cave on the Nullabor. 5 You uncover a large echinoid. 6 You find a complete trilobite. 7 You thought you had found the first fossil bunyip. 8 You uncover a large echinoid. 9 You pick up a large curled shell only to find it is an angry snake. 10 You find a complete trilobite. 11 You find a complete trilobite. 12 You find a complete trilobite. 13 You find a complete trilobite. 14 You find a complete trilobite. 15 You thought you had found the first fossil bunyip. 16 You find a complete trilobite. 17 You find a complete trilobite. 18 You find a complete trilobite. 19 You find a complete trilobite. 20 You accidentally drop and smash a rare fossil. 21 You find a fossil feather. 22 You find a fossil feather. 23 You find a fossil feather. 24 You find a fossil feather. 25 You find Western Australia's first dinosaur bone. 26 You pick up a large curled shell only to find it is an angry snake. 27 You find a complete trilobite. 28 You find a complete trilobite. 29 You find a complete trilobite. 30 You find a complete trilobite. 31 You find a complete trilobite. 32 You find a complete trilobite. 33 You find a complete trilobite. 34 You uncover a complete opalized plesiosaur skeleton. 35 You uncover a complete opalized plesiosaur skeleton. 36 You uncover a complete opalized plesiosaur skeleton. 37 You uncover a complete opalized plesiosaur skeleton. 38 You uncover a complete opalized plesiosaur skeleton. 39 You collect a slab of rock containing 20 complete crinoids. 40 You collect a slab of rock containing 20 complete crinoids. 41 You find a mummified thylacine in a cave on the Nullabor. 42 You find a mummified thylacine in a cave on the Nullabor. 43 You find a mummified thylacine in a cave on the Nullabor. 44 You find a mummified thylacine in a cave on the Nullabor. 45 You find a mummified thylacine in a cave on the Nullabor. 46 You hit and break your thumb with a hammer. You must seek medical help! 47 You hit and break your thumb with a hammer. You must seek medical help! 48 You hit and break your thumb with a hammer. You must seek medical help! 49 You hit and break your thumb with a hammer. You must seek medical help! 50 You spend two days digging only to uncover a smelly sheep's skeleton. 51 You spend two days digging only to uncover a smelly sheep's skeleton. 52 You spend two days digging only to uncover a smelly sheep's skeleton. 53 You find an ammonite that has a diameter of one metre. 54 You find an ammonite that has a diameter of one metre. 55 You find an ammonite that has a diameter of one metre. 56 You collect a Zygomaticus skull with a stone implement wedged in it. 57 You collect a Zygomaticus skull with a stone implement wedged in it. 58 You forget to pack your hammer with the rest of your field equipment. 59 You forget to pack your hammer with the rest of your field equipment. 60 You forget to pack your hammer with the rest of your field equipment. 61 You used too much explosive and blew in the entrance of the cave. 62 You used too much explosive and blew in the entrance of the cave. 63 You used too much explosive and blew in the entrance of the cave. 64 You used too much explosive and blew in the entrance of the cave. 65 Your 4-wheel drive gets stuck in the mud. You spend days digging it out. 66 Your 4-wheel drive gets stuck in the mud. You spend days digging it out. 67 Your 4-wheel drive gets stuck in the mud. You spend days digging it out. 68 You collected a fossil from a national park. 69 You collected a fossil from a national park. **MUSEUM** **FINISH** Congratulations! Now you can start your own museum!

Corythosaurus
These duck-billed dinosaurs had toothless beaks and large crests on their heads. They were plant-eating herbivores, with good hearing and a good sense of smell.

Pachycephalosaurus
The thickened skull roofs of these dome-headed dinosaurs allowed them to use their head as a battering ram. They could have charged and head-butted rivals much the way goats and bulls do today.

Stryacosaurus
These herbivores had a long nasal horn and six horns on the back of their frill. They had a thick hide and grew to 5.5 metres in length. Scientists believed they travelled in herds.

Tyrannosaurus rex
Sixty five million years ago, this was one of the fiercest predators on Earth. It was a meat-eating carnivore, attacking and eating other dinosaurs.
