

Spectacular waterfront views and a striking Western Australian setting make the Function Centre & Balcony on Victoria Quay a unique and highly sought after venue.

Glass walls to the north of the Function Centre open onto the stylishly curved balcony where guests will enjoy the grandeur of uninterrupted views of Fremantle Harbour. Glass walls to the south frame the imposing height of the pearl lugger Trixen and the dramatic display of Western Australian maritime artefacts.

With its state-of-the-art design, this sophisticated Function Centre & Balcony set the calibre for all occasions, including weddings, dinners, corporate functions and launches.

To add that unique touch to your event, talk to the Venue Hire team about arranging a special after hours viewing of the Museum where your guests can view incredible artefacts such as *Australia II* and the *Parry Endeavour* while discovering how Western Australians live, play and work on the ocean.
