Backyard Explorer

Field Notes. The following are some good starting points for the casual observer.

| Time observed (morning, midday, | |
|------------------------------------|--|
| dusk or nighttime) | |
| Where observed (on | |
| a tree, climbing a | |
| wall, in the grass) | |
| Size (don't say big or | |
| small but use your | |
| ruler if you can or | |
| compare it to something like a | |
| coin) | |
| Colour (solid colour | |
| or pattern, markings | |
| or texture) | |
| Features (how many | |
| legs or wings does it | |
| have, what size it's | |
| antenna) | |
| Behavior (what did it | |
| appear to be doing, | |
| was it feeding, | |
| carrying, walking, | |
| flying or was it | |
| observing you) | |
| | |
| | |
| | |
| | |
| | |
| | |
